**FOR THE YEARS ENDED MARCH 31, 2024 AND 2023**

**(Expressed in Canadian Dollars)**

## Independent Auditor's Report

---

To the Shareholders of:  
**STILLWATER CRITICAL MINERALS CORP.**

### Opinion

We have audited the consolidated financial statements of Stillwater Critical Minerals Corp. and its subsidiaries (collectively "the Company"), which comprise the consolidated statements of financial position as at March 31, 2024 and 2023 and the consolidated statements of loss and comprehensive loss, changes in shareholders' equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2024 and 2023, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS").

### Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Material Uncertainty Related to Going Concern

Without qualifying our opinion, we draw attention to Note 1 in the consolidated financial statements which describe certain conditions that indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability continue as a going concern.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended March 31, 2024. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matter described below to be a key audit matter to be communicated in our report

### Evaluation of Assessment of Impairment Indicators of Mineral Properties

As described in Note 6, the carrying value of the Company's mineral properties and related deferred costs is \$3,286,907 as at March 31, 2024. Management assesses at each reporting period-end whether there is an indication that an asset or group of assets is impaired. If such indicator exists, the asset's recoverable amount is estimated. Assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (cash generating unit or CGU). An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Management applies significant judgement in order to assess whether indicators of impairment exist. Impairment indicators include internal and external factors, such as (i) evidence indicating that the Group's right to explore the area has expired or will expire in the near future, (ii) management does not have any plans to continue exploration expenditures, (iii) lack of evidence to support technical

feasibility or commercial viability, and (iv) facts and circumstances that suggest that the carrying amount exceeds recoverable amount. No impairment indicators were identified by management as at March 31, 2024.

We considered this a key audit matter due to (i) the significance of the mineral properties and related deferred costs in the consolidated financial statements, (ii) the level of subjectivity required in applying audit procedures to assess the factors considered by management in its assessment of impairment indicators, and (iii) the significant auditor attention and audit effort the matter required.

### **Audit Response**

We responded to this matter by performing procedures over management's assessment of indicators of impairment which included the following:

- Obtained, for a sample of claims, by reference to government registries, evidence to support the right to explore the area and claim expiration dates;
- Reviewed internal and external resources, such as current year exploration expenditures and planned work programs and budgets to evidence continued and planned exploration expenditures;
- Assessed the Company's market capitalization to net assets ratio at March 31, 2024; and
- Assessed whether there are facts and circumstances that could indicate that the carrying values of the exploration and evaluation assets may not be recoverable, based on evidence obtained in other areas of the audit.

### **Other Information**

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Sebastian Tang.

**1. NATURE OF OPERATIONS AND GOING CONCERN**

Stillwater Critical Minerals Corp. (the “Company”) is a publicly listed company on the TSX Venture exchange (“TSX-V”), incorporated under the laws of British Columbia, Canada on April 28, 2006. The Company’s principal business activities include the acquisition and exploration of mineral properties. The Company’s registered office is 904-409 Granville Street, Vancouver, British Columbia, Canada, V6C 1T2. On June 13, 2022, the Company changed its name from Group Ten Metals Inc. to Stillwater Critical Minerals Corp.

These consolidated financial statements have been prepared using International Financial Reporting Standards (“IFRS”) applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The ability of the Company to continue as a going concern is dependent on its ability to obtain additional equity financing and achieve profitable operations. The Company has sustained losses from operations and has an ongoing requirement for capital investment to acquire and explore its mineral properties.

The Company incurred a net loss of \$5,529,304 for the year ended March 31, 2024 (2023 - \$4,306,554), and as of that date, had an accumulated deficit of \$38,738,037 (March 31, 2023 - \$33,434,589). At March 31, 2024, the Company had a total of \$1,339,048 (March 31, 2023 - \$1,452,685) in current assets and a working capital of \$603,280 (March 31, 2023 - \$985,780) and no long-term debt. Subsequent to March 31, 2024 the Company closed a non-brokered private placement for gross proceeds of \$3,891,720 (Note15).

While the Company has been successful in obtaining the necessary financing to cover its corporate operating costs and advance the development of its projects through the issuance of common shares and the exercise of warrants in the past, there is no assurance it will be able to raise funds in this manner in the future. There remain material uncertainties that may cast significant doubt as to the Company’s ability to continue as a going concern. These consolidated financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern.

**2. BASIS OF PREPARATION**

**Statement of compliance**

The Company’s consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). These consolidated financial statements were prepared on a historical cost basis using the accrual basis of accounting, except for cash flow information. These consolidated financial statements were approved by the board of directors on July 29, 2024.

**3. SUMMARY OF MATERIAL ACCOUNTING POLICIES**

**(a) Basis of consolidation**

The consolidated financial statements include the results or financial information of Stillwater Critical Minerals Corp. and its wholly-owned subsidiaries listed in the following table:

<b>Name</b>	<b>Country of incorporation</b>
Yankee Girl Resources Corp	Canada
Group Ten (USA) Inc	USA
Group Ten (Alaska) Inc	USA

**STILLWATER CRITICAL MINERALS CORP.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED MARCH 31, 2024 AND 2023**  
(Expressed in Canadian Dollars)

---

The results of each subsidiary will continue to be included in the consolidated financial statements of the Company until the date that the Company's control over the subsidiary ceases. All significant intercompany transactions and balances have been eliminated.

**(b) Foreign Currency**

The Company and its wholly owned subsidiaries' functional currency is the Canadian dollar as it is the currency in which the majority of the funding is obtained to continue operations and its presentation currency.

Monetary assets and liabilities of a company that are denominated in a currency other than the functional currency are translated at the exchange rate in effect at the period end. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined. Revenue and expense items are translated at the average rates of exchange prevailing during the year. Gains or losses from translation are recognized in profit or loss in the period in which they occur.

**(c) Significant Accounting Estimates and Judgments**

The preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and judgments that affect amounts reported in the consolidated financial statements. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances, and subject to measurement uncertainty. The effect on the consolidated financial statements of changes in such estimates in future reporting periods could be significant. Significant estimates and areas where judgment is applied that have significant effect on the amount recognized in the consolidated financial statements include:

*Impairment of long-lived assets*

The carrying value of mineral property acquisition costs is reviewed each reporting period to determine whether there is any indication of impairment. The determination of the impairment involves the application of a number of significant judgments and estimates to certain variables including metal price trends, plans for properties, and the results of exploration and evaluation to date.

*Determination of, and provision for, reclamation and remediation obligations*

The Company assesses its provision for asset retirement obligations on an annual basis or when new material information becomes available. Accounting for reclamation and remediation obligations requires management to make estimates of the future costs the Company will incur to complete the reclamation and remediation work required to comply with existing laws and regulations. Actual costs incurred may differ from those amounts estimated. Also, future changes to environmental laws and regulations could increase the extent of reclamation and remediation work required to be performed by the Company. Increases in future costs could materially impact the amounts charged to operations for reclamation and remediation.

*Deferred taxes*

The Company recognizes a deferred tax asset to the extent recovery is probable. Assessing the recoverability of deferred tax assets requires management to make significant estimates of future taxable profit against which deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilized. In addition, changes in tax laws could limit the ability of the Company to obtain tax deductions in future periods.

**STILLWATER CRITICAL MINERALS CORP.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED MARCH 31, 2024 AND 2023**  
(Expressed in Canadian Dollars)

---

*Share-based payments*

Share-based payments are determined using the Black-Scholes option pricing model at the date of grant and are expensed to net loss over each award's vesting period. The Black-Scholes option pricing model utilizes subjective assumptions such as expected price volatility and expected life of the option. Changes in these input assumptions can significantly affect the fair value estimate.

**(d) Exploration and Evaluation Assets**

All expenditures related to the acquisition of mineral properties are capitalized on a property-by-property basis, net of recoveries which are recorded when received, until these mineral properties are placed into commercial production, sold or abandoned. If commercial production is achieved from a mineral property, the related mineral properties are tested for impairment and reclassified to mineral property in production. If a mineral property is sold or abandoned, the related capitalized costs will be expensed to profit or loss in that period.

All expenditures related to the exploration and evaluation of mineral properties, net of recoveries which are recorded when received, are expensed to net loss in the period in which they are incurred.

From time to time, the Company may acquire or dispose of all or part of its mineral property interests under the terms of property option agreements. Options are exercisable entirely at the discretion of the optionee, and accordingly, option payments are recognized when paid or received. If recoveries are received and exceed the capitalized expenditures, the excess is reflected in profit or loss.

All capitalized mineral property costs are reviewed at each reporting date, on a property-by-property basis, to consider whether there are any conditions that may indicate impairment. When the carrying value of a property exceeds its net recoverable amount that may be estimated by quantifiable evidence of an economic geological resource or reserve, joint venture expenditure commitments or the Company's assessment of its ability to sell the property for an amount exceeding the carrying value, provision is made for the impairment in value. The amounts capitalized for mineral properties represent costs incurred to date less write-downs, and are not intended to reflect present or future values.

Although the Company has taken steps to verify the title to mineral properties in which it has an interest in accordance with general industry standards, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and, as such, title may be affected.

**(e) Related Party Transactions**

Parties are considered related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered related if they are subject to common control. Related parties may be individuals or corporate entities. A transaction is considered a related party transaction when there is a transfer of resources or obligations between related parties.

**(f) Share Capital**

The Company has adopted a residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to the more easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component. Proceeds from the issue of units, consisting of common shares and share purchase warrants, are first allocated to common shares based on the quoted market value of the common shares at the time the units are priced, and the balance, if any, is allocated to the attached warrants. Share issue costs are netted against share proceeds prorated to common shares and share purchase warrants.

**STILLWATER CRITICAL MINERALS CORP.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED MARCH 31, 2024 AND 2023**  
(Expressed in Canadian Dollars)

---

**(g) Non-monetary Transactions**

Shares issued for non-monetary consideration to non-employees are recorded at the fair value of the goods or services received. When such fair value cannot be estimated reliably, fair value is measured based on the quoted market value of the Company's shares on the date of share issuance. Shares to be issued, which are contingent upon future events or actions, are recorded by the Company when it is reasonably determinable that the shares will be issued.

**(h) Share-based Payments**

Share-based payments for employees are measured at fair value of the instruments issued on the date of grant and amortized over the vesting period. Share-based payments for non-employees are measured at the fair value of the goods or services received, and if it is determined that the fair value of the goods or services cannot be reliably measured, at the fair value of value of the equity instrument issued, and are recorded on the date the goods or services are received. The fair value of stock options is charged to profit or loss using the graded vesting method, with the offset credit to share-based payment reserve.

Consideration received on the exercise of stock options is recorded as share capital and the related fair value previously recorded is transferred from share-based payment reserve to share capital. Upon expiry or cancellation, related fair value previously recorded is transferred from share-based payment reserve to deficit.

**(i) Flow-through Shares**

The Company has financed a portion of its exploration expenditures through the issuance of flow-through shares. Canadian income tax law permits the Company to transfer the tax deductibility of qualifying resource expenditures financed by such shares to the flow-through shareholders.

On issuance, the Company allocates the flow-through share proceeds into i) share capital, ii) warrants, and iii) a flow-through share premium, if any, using the residual value method. If investors pay a premium for the flow-through feature, it is recognized as a liability. Upon incurring qualifying expenditures, the Company reduces the liability and recognizes a deferred income tax recovery in income for the amount of tax reduction renounced to the shareholders. The premium is recognized as other income and the related deferred tax is recognized as a tax provision. At the end of a period, the flow-through share premium liability consists of the portion of the premium on flow-through shares that corresponds to the portion of qualifying exploration expenditures that have not yet been incurred.

Proceeds received from the issuance of flow-through shares are restricted to be used only for Canadian resource property exploration expenditures within a prescribed period.

The Company may also be subject to a Part XII.6 tax on flow-through proceeds renounced under the Lookback Rule, in accordance with Government of Canada flow-through regulations. When applicable, this tax is accrued as a financial expense until paid.

**(j) Loss per Share**

Basic loss per share is computed by dividing the net loss available to common shareholders by the weighted average number of shares outstanding during the reporting period. Diluted loss per share is computed similar to basic loss per share except that the weighted average shares outstanding are increased to include additional shares for the assumed exercise of stock options, warrants and similar instruments. It assumes that the proceeds of such exercise would be used to repurchase common shares at the average market price during the period. However, the calculation of diluted loss per share excludes the effects of various conversions and exercise of options, warrants and similar instruments that would be anti-dilutive.

**STILLWATER CRITICAL MINERALS CORP.**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED MARCH 31, 2024 AND 2023**  
(Expressed in Canadian Dollars)

---

**(k) Income Taxes**

The Company follows the asset and liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities, and their respective tax basis. Deferred tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in profit or loss in the period that includes the enactment date.

Deferred tax assets also result from unused tax losses carried forward, resource related tax pools and other deductions. A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each year-end date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

**(l) Financial Instruments**

Classification

The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

Measurement - Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Measurement - Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the Consolidated Statements of Comprehensive Income. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the Consolidated Statements of Comprehensive Income in the period in which they arise.

Impairment of financial assets

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to twelve month expected credit losses. The Company shall recognize in the Consolidated Statements of Comprehensive Income, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

(Expressed in Canadian Dollars)

**(m) Government Grants**

Government grants related to exploration activities are recognized in profit or loss as a deduction from the related expenditure when there is reasonable assurance that the grant will be received. Grants that compensate the Company for the cost of an asset are recognized in profit or loss on a systematic basis over the useful life of the asset.

**(n) New accounting standards and interpretations**

The Company adopted the following amendments to accounting standards, which are effective for annual periods beginning on or after January 1, 2023:

Disclosure of accounting policies - amendments to IAS 1 and IFRS Practice Statement 2

The amendments to IAS 1 Presentation of financial statements and IFRS Practice Statement 2 Making materiality judgments provide guidance and examples to help entities apply materiality judgments to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures. The amendments have had an impact on the Company's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Company's consolidated financial statements.

- of 2018 (issued), 2019 (issued – valued at \$112,500) and 2020 (issued – valued at \$216,000);
- Make cash payments of United States dollars (“USD”) \$40,000 with USD\$20,000 on or before each of May 31, 2018 (paid) and 2019 (paid – CDN \$26,600);
  - Make advance royalty payments until commencement of commercial production of USD\$15,000 within ten days of regulatory approval (paid), USD\$30,000 on or before May 31, 2018 (paid) and USD\$50,000 on or before May 31, 2019 (paid – CDN\$66,500) and thereafter USD\$50,000 annually (paid May 31, 2020 – CDN\$67,654, June 17, 2021 – CDN\$61,900, June 1, 2022 – CDN\$63,370 and July 6, 2023 – CDN\$67,658); and
  - Execute a work contract for a minimum of USD\$50,000 per year for the duration of the option agreement for technical and management work, which is three years (completed).

The project is subject to a 2% Net Smelter Return royalty (“NSR”) and the Company has an option to redeem the NSR to 1%.

Pursuant to further staking from November 2017 to present, the Company’s land holdings at the Stillwater West project have increased to approximately 61 km<sup>2</sup> consisting of 763 claims.

**b) Kluane PGE-Ni-Cu Project (Yukon, Canada)**

The Company owns a 100% interest in four platinum group and battery metals properties totaling over 255 km<sup>2</sup> in the Kluane Ultramafic Belt in southwestern Yukon. Together, these properties comprise the Kluane PGE-Ni-Cu project.

Catalyst

The Company earned its 100% interest in the Catalyst property on December 5, 2019 by completing the following commitments:

- Pay \$10,000 to Progressive Planet Solutions Inc. (“Progressive” – formerly Ashburton Ventures Inc.) on or before December 29, 2017. The agreement was amended and in lieu of the cash payment, the Company issued 200,000 common shares to Progressive (issued – valued at \$26,000); and
- Issue 300,000 common shares to Denali Resources Ltd. on or before July 31, 2019 (issued – valued at \$52,500).

Certain claims on the Catalyst property are subject to a 3% NSR and the Company has an option to redeem the NSR down to 1%.

The Catalyst property also includes claims previously referred to as the CKR claims.

Spy

The Company owns a 100% interest in the Spy property. The Spy claims are subject to a 3% NSR and the Company has an option to buy the NSR down to 1%.

Ultra

The Company owns a 100% interest in the Ultra property and a 100% interest in 24 additional claims adjoining the Ultra property.

The claims are subject to a 2% NSR and the Company has an option to buy the NSR down to 1%.

The Company holds a 100% interest in the Outpost property which is adjacent to and forms part of the Ultra property. As of March 31, 2020, the Company satisfied all earn-in requirements and owns 100% of the Outpost property in addition to the Pacer properties (included with the Ellen property below) by completing the below outstanding requirements:

- Complete \$30,000 of work expenditures (completed), make a cash payment of \$20,000 (paid) and issue 400,000 common shares of the Company on or before the first anniversary of signing (issued – valued at \$50,000); and
- Complete an additional \$105,000 of work expenditures (completed) and issue 500,000 common shares of the Company on or before the second anniversary of the acceptance of this agreement (issued – valued at \$125,000).

The claims are subject to a 2% NSR and the Company has the option to redeem the NSR down to 1%.

Ellen

The Company owns a 100% interest in the Ellen property, which consists of 72 claims totaling approximately 13km<sup>2</sup> in the Yukon Territory. The Ellen property includes the adjoining Pacer NW and nearby Pacer SE claim groups, which are owned 100% by the Company and were acquired with the Outpost claims block (see Ultra property, above).

**c) Duke Island (Alaska, United States)**

The Company owns a 100% interest in 31 unpatented mineral claims located on Duke Island, Alaska. The claims are subject to a 1% NSR.

**d) Drayton-Black Lake (Ontario, Canada)**

The Company owns 100% of a total land package of 13,773 continuous hectares of the Drayton-Black Lake properties.

Black Lake

- (i) The Company owns a 100% interest in mineral claims covering 2,430 hectares located in the Patricia Mining Division near Sioux Lookout, Ontario. The claims are subject to a 2% NSR upon commencement of commercial production. The Company has an option to redeem the NSR down to 1%.
- (ii) To further consolidate claims in the Black Lake and Drayton property area, the Company acquired 100% of the below land packages through option agreements:
  - Mineral claims covering 1,224 hectares in the area between Black Lake and Drayton with no royalty obligation.
  - Mineral claims covering 441 hectares in the Black Lake area. The claims are subject to a 3% NSR upon commencement of commercial production and the Company has the option to redeem the NSR down to 2%.
- (iii) The Company acquired additional claims adjoining and between the above claims by direct staking at various dates. There are no royalty interests on claims staked by the Company.

Drayton

The Company owns a 100% interest in mineral claims covering 1,983 hectares located in the Patricia Mining Division near Sioux Lookout, Ontario.

Upon commencement of commercial production, the claims are subject to a 1% NSR with no buy-down provision, and an additional 3% NSR with the Company having an option to redeem the NSR down to 1.5%.

On August 19, 2021, the Company entered into a binding Letter of Intent (“LOI”) with Heritage Mining Ltd. (“Heritage”), whereby, Heritage can acquire up to a 90% interest in the Company’s

Drayton-Black Lake gold properties in Ontario, Canada. The interest can be acquired by issuing a total of 7,200,000 shares, making cash payment of \$320,000, completing exploration and development work totaling \$5,000,000 on the Drayton-Black Lake properties. During the year ended March 31, 2022 the Company completed the Definitive Earn-In Agreement (the "Agreement") contemplated within the LOI, which defines the details and timing of option payments as follows:

- (i) Heritage was required to pay a \$20,000 cash payment to the Company within three business days of executing the LOI (received), and the LOI is exclusive and binding on the parties for a period of 60 days to allow for completion of the Agreement.
- (ii) Heritage was to issue 2,800,000 shares to the Company within ten business days of obtaining a public listing on a specified Canadian exchange. (The Company received 2,800,000 shares of Heritage on September 1, 2022 valued at \$490,000. As the value of the property was less than the value of the shares received, a gain of \$121,060 was recorded in the consolidated statement of loss and comprehensive loss.)
- (iii) Heritage may earn a 51% interest (the "First Option") by completing the following on or before the third anniversary of the Agreement:
  - Issuing an additional 3,300,000 shares to the Company; (On November 25, 2022 the Company received 1,100,000 shares valued at \$104,500 and on November 24, 2023 the Company received 1,100,000 shares valued at \$55,000. Both values were recorded as a gain in the consolidated statement of loss and comprehensive loss);
  - Completing cash payments totaling \$300,000; (On November 24, 2022 the Company received \$150,000 in cash and recorded as a gain in the consolidated statement of loss and comprehensive loss. Refer below regarding the second anniversary payment) and
  - Completing exploration work totaling \$2,500,000 (Heritage has exceeded the minimum first and second annual commitments of \$500,000).

On December 29, 2023, the Company entered into an Amended and Restated Amendment Agreement whereby the Company agreed to accept the following consideration as satisfaction in full of the \$150,000 cash payment that was due on November 25, 2023:

- The issuance of additional 250,000 common shares in the capital of Heritage to the Company; (Received). The shares were valued at \$12,500 and recorded as a gain in the consolidated statement of loss and comprehensive loss) and
  - The issuance of 6,000,000 units of Heritage with each unit consisting of one common share in the capital of Heritage and one warrant to purchase a common share in the capital of Heritage at a price of \$0.075 for a period of 24 months from the date of the issuance. (The units were received on January 12, 2024. The Company recorded the 6,000,000 shares of Heritage valued at \$300,000 and 6,000,000 warrants valued at \$120,606, calculated using the Black-Scholes option pricing model) (Note 5).
- (iv) Upon completion of the First Option, Heritage may earn an additional 39% ownership interest (the "Second Option") for a cumulative 90% interest by completion of the following on or before the fourth anniversary of the Agreement:
    - Issuing an additional 1,100,000 shares to the Company; and
    - Completing additional exploration work totaling \$2,500,000.

In addition, the LOI provides the following:

- (i) Upon completion of the Second Option, the Company will retain a 10% free carried interest in the Drayton-Black Lake properties, with Heritage being responsible for all property costs until

- completion by Heritage of a positive feasibility study supported by a technical report prepared in accordance with NI 43-101 on the Property (the "FS").
- (ii) A discovery payment of \$1.00 per ounce of gold or gold equivalent shall be made on mineral resource estimates as filed from time-to-time on the Drayton-Black Lake properties and shall, in Heritage's discretion, be paid in cash or shares (or a combination thereof), capped at a maximum of \$10,000,000.
- (iii) The LOI provides for the formation of a Joint Venture ("JV") based on the then legal and beneficial ownership levels in the Property following completion of the FS. A JV may also be formed in the event Heritage does not complete the requirements of the Second Option, in which case Heritage is required to maintain minimum exploration and development expenditures of \$500,000 per annum until the completion of the FS in order to maintain status as operator of the JV. The Company maintains certain back-in rights to the property in the event that Heritage does not meet the minimum exploration requirements.
- (iv) The Company is required to complete \$300,000 of exploration work on the properties within the first year of the Agreement (completed), provided any shortfall by the Company shall reduce Heritage's obligation on a dollar-for-dollar basis.

**e) Yankee Dundee (British Columbia, Canada)**

Yankee Dundee consists of 26 Crown-granted mineral claims located in the Nelson Mining District near Ymir, British Columbia. On June 25, 2013, the Company closed the sale of its interests and obligations in the properties to Armex Mining Corp. ("Armex") in exchange for advance royalty payments, royalty payments, and production payments.

The remaining terms of the agreement are as follows:

- (i) Armex is to pay remaining advance royalty payments of:
- \$50,000 on or before August 28, 2015 (unpaid); and
  - \$50,000 on or before August 28, 2016 (unpaid) and annually thereafter until the commencement of commercial production.
- (ii) Armex is to pay production and additional payments of:
- \$250,000 upon the commencement of commercial production;
  - \$250,000 upon the first anniversary of commencement of commercial production; and
  - additional production payments aggregating \$1,000,000 payable from 30% of net revenues as defined in the agreement.

Armex has the right to satisfy the production and additional payments by paying the aggregate sum of \$1,250,000 any time during the first year of commercial production.

Armex will also assume all obligations per existing underlying option agreements with respect to the Yankee Dundee claims which consist of a 1% NSR upon commencement of commercial production until the recovery of the lesser of aggregate expenditures incurred and \$5,000,000, after such time, the NSR will increase to 2.5%. At any time up to the commencement of commercial production, an option is available to purchase 1.5% of the NSR for \$500,000 and the remaining 1% for \$500,000.

The Company will also be entitled to a 2.5% NSR upon commencement of commercial production, with Armex holding the right to repurchase the royalty at any time on the basis of \$1,000,000 for each 1%. In addition, the Company retains back-in rights pursuant to the agreement by which it can re-acquire the property in the event specific production milestones are not met.

Armex disputes the overdue advance royalty payments that were payable on or before August 28, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022 and 2023. As the Company believes that the financial situation of Armex has deteriorated to an extent that precludes it from completing the sale agreement, the capitalized costs relating to Yankee Dundee have been reduced to \$Nil.

## **11. FINANCIAL INSTRUMENTS**

### **a) Categories of Financial Instruments**

The Company's financial instruments include cash and cash equivalents, accounts receivable, due from related parties, marketable securities, accounts payable and accrued liabilities and due to related parties. The Company has classified its financial instruments as amortized cost except marketable securities which is classified as fair value through profit and loss.

### **b) Fair Value**

The carrying values of accounts payable and accrued liabilities and due to related parties approximate their fair values due to the short period to maturity.

### **c) Financial Risk Management**

The Company's financial instruments are exposed to certain financial risks, including liquidity risk, currency risk, interest rate risk, credit risk, and other price risk.

The Company's exposure to these risks and its methods of managing the risks are summarized as follows:

#### **i) Liquidity Risk**

Liquidity risk is the risk that the Company will be unable to meet financial obligations as they fall due. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due by forecasting cash flows for operations, anticipated investing and financing activities and through management of its capital structure.

As at March 31, 2024, all of the Company's financial liabilities had contractual maturities of less than 90 days.

#### **ii) Currency Risk**

The Company is exposed to currency risk to the extent expenditures incurred or funds received and balances maintained by the Company are denominated in currencies other than the Canadian dollar. The Company does not manage currency risks through hedging or other currency management tools and considers the risks related to foreign currency are not significant at this time. The Company is not exposed to material currency risk.

#### **iii) Interest Rate Risk**

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. Based on the current cash balances and expected future interest rates, the Company is not exposed to material interest rate risk.

**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED MARCH 31, 2024 AND 2023**  
(Expressed in Canadian Dollars)

---

**iv) Credit Risk**

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge its contractual obligations. The Company is exposed to credit risk mainly in respect to managing its cash. The Company mitigates such credit risk by risk management policies that require significant cash deposits or any short-term investments be invested with Canadian chartered banks rated BBB or better. All investments must be less than one year in duration.

**v) Other Price Risk**

Other price risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to significant other price risk.

**12. CAPITAL MANAGEMENT**

The Company's objectives in managing its capital are to maintain the ability to continue as a going concern in order to support the acquisition, exploration and development of its exploration and evaluation assets.

The Company considers the items included in equity as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, sell assets to reduce debt or return capital to shareholders.

As the Company is in the exploration stage, its operations have been substantially funded by the issuance of equity instruments. The Company will continue to rely on equity issuances for future funding depending upon market and economic conditions at the time.

There have been no changes in the Company's approach to capital management during the year ended March 31, 2024.

The Company is not subject to externally imposed capital requirements.

**13. INCOME TAXES**

Income tax expense differs from the amount that would result from applying the Canadian federal and provincial income tax rates to earnings before income taxes. These differences result from the following items:

	<b>2024</b>	<b>2023</b>
	\$	\$
Net Loss for the year	(5,529,304)	(4,306,554)
Canadian federal and provincial income tax rates	27%	27%
Expected income tax recovery at statutory rate	(1,492,912)	(1,162,770)
Increase (decrease) due to:		
Non-deductible expenditures and other permanent differences	265,869	24,115
True up to prior year estimates	(9,821)	(26,075)
Losses for which no tax benefit is recorded	1,236,864	1,164,730
Income tax recovery as recorded	-	-

**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEARS ENDED MARCH 31, 2024 AND 2023**  
(Expressed in Canadian Dollars)

The components of unrecognized deductible temporary differences and unused tax losses for which no deferred tax asset has been recognized consist of the following amounts:

	<b>2024</b>	<b>2023</b>
	\$	\$
Share issue costs	375,402	538,208
Exploration and evaluation assets	2,302,457	3,039,584
Marketable securities	310,270	102,250
Capital losses and other	48,152	48,152
Non-capital losses	<u>27,927,142</u>	<u>22,577,186</u>
Unrecognized temporary differences and non-capital losses	<u>30,963,423</u>	<u>26,305,380</u>

In assessing the ability to realize deferred tax assets, management considers whether it is probable that some portion or all of the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those deferred tax assets are deductible.

As at March 31, 2024, the Company's unrecognized Canadian non-capital losses expire as follows:

	\$
2027	67,000
2028	556,000
2029	570,000
2030	660,000
2031	537,000
2032	467,000
2033 to 2044	<u>10,698,000</u>
	<u>13,555,000</u>

In addition, the Company has approximately CAD\$14,370,187 in United States tax losses with no expiry date.

**14. SEGMENTED INFORMATION**

The Company has one operating segment, acquisition, exploration and development of mineral properties. The table below shows consolidated data by geographic segment based on location:
